## Power & Energy Solution

- Substation Solution
- Solar Panel System
- Maintenance & Consulting
- LT Switchgear & Control Panel
- All Electrical Solution

## Substation Solution

Guraba Engineering Limited is your expert partner for ensuring the safe and environmentally responsible operation of high voltage electrical systems.

Our team also provides essential maintenance and repair services for critical components like Load Tap Changers (LTCs), helping maintain reliable power distribution. Whether you need proactive leak detection, critical repairs, or comprehensive high voltage consulting, Substation Solutions has the expertise to keep your operations running smoothly and safely.

## Solar Panel System

Solar panels are those devices which are used to absorb the sun's rays and convert them into electricity or heat.

This energy can be used to generate electricity or be stored in batteries or thermal storage.

## Maintenance & Consulting

Guraba Engineering limited provide to your electrical consultant. Our professional electrical engineers can offer a variety of consultation services to increase your facility's electrical safety, reliability and efficiency, and get you into compliance with relevant standards.

## LT Switchgear & Control Panel

LT switchgear panel refers to the low-tension panel that is being manufactured and applied for controlling the distribution systems and power control of AC. This type of panel is mainly used in the indoor and outdoor substation, industrial enterprise, commercial or residential buildings that distribute power

## All Electrical Solution

### Electrical installation
